

PREVENTION OF MEDICAL ERRORS FOR OT

This online independent study module is approved by the Florida Board of Occupational Therapy. This online training module has been developed to provide the most current information on reducing preventable medical errors. This course meets the requirement for continuing education in prevention of medical errors, both for initial licensure and biennial renewal, for healthcare professionals in Florida.

Upon completion of this course, you will be able to:

- Summarize common types of medical errors.
- List factors that increase the risk of medical errors.
- Identify populations of special vulnerability.
- Describe strategies to prevent medical errors.
- Enumerate the elements that comprise root cause analysis.
- Discuss Florida's medical error reporting requirements.
